

The Turkish Attacks

from 23rd of December till 26th of December 2023

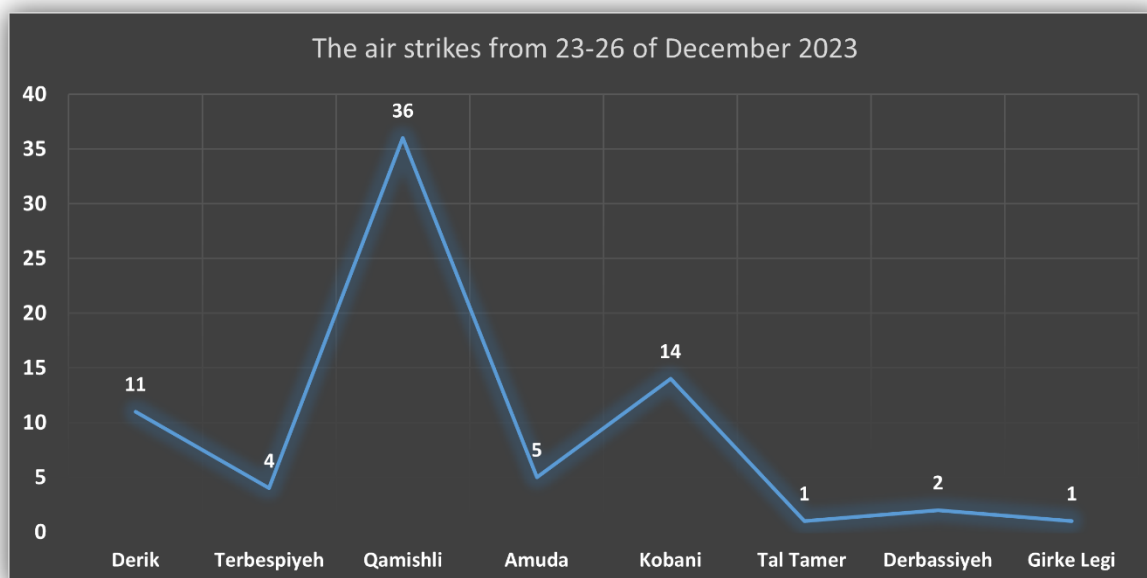

Consultation and Coordination Office
MIC-Monitoring and Information Center

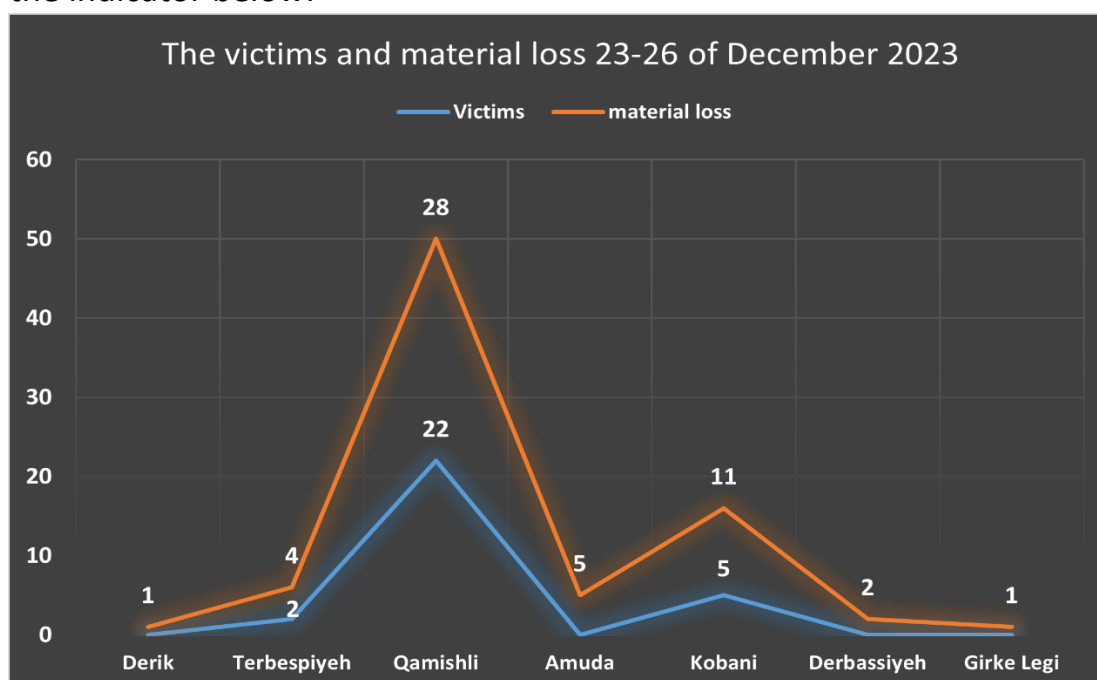

introduction:

The Turkish forces re-escalated their air attacks on various regions of north and east of Syria, during Christmas celebrations in December 2023, intensifying their air targeting operations, via warplanes and drones, of civilian service sites without distinction, and inflicting more human and material losses, after the violent air strikes that targeted the region between October 5 and 10 and on November 22 of the current year of 2023.

The Monitoring and Information Center (MIC) in the Consultation and Coordination office documented the strikes from 23 to 26 December. The assaults by Turkish warplanes and drones, has reached **74 airstrikes within 72 hours**, targeting the areas of Kobani, Qamishli, Amuda, Derbassiyeh, Tal Tamer, Girke Legi, Terbespiyeh, and Derik. The attacks targeted civilian service facilities, including factories, warehouses, hospitals, electrical stations, sewing workshops, halls, agricultural centers, laboratories, gas stations, and Printing company.

The Turkish air strikes led to the complete and partial destruction of **52 civilian service facilities** throughout the regions of north and east of Syria, it also led to human casualties reached to **29 casualties** in all the targeted areas, including one martyr and one wounded, as shown in the indicator below:

It is worth to be mentioned:

The Turkish attacks coincided with attacks by the Islamic Resistance on 3 joint bases of the international coalition against ISIS, with drones and missile attacks. On December 23, coinciding with the Turkish bombing of the areas of Derik and Terbespiyeh, the Islamic Resistance bombed the joint bases of Kharab Jir and Al-Malikiyah (Rubaria) with several missiles, and on December 25 in conjunction with the Turkish bombing of the areas of Qamishli, Amuda, and Kobani, the Islamic Resistance attacked the joint Al-Omar field base with several drones, and the latter announced that it had directly hit its targets.

Details of the Turkish attacks:

On December 23, warplanes targeted vital centers and an energy service facility in the cities of **Derik** and **Terbespiyeh**, with the number of air strikes reaching 15. They targeted Al- Oda Oil Facility, the Saeeda Oil Facility, an energy service facility, an agricultural bank, and a plastics factory, causing human and material damage, as civilians were injured. As a result of the bombing and strikes, the aforementioned centers were completely out of service.
